DOWNLOAD THE 'Commtel CONTROL' APP

- Easy remote programming to fully control and configure.

- Please pay particular attention to the Safety Message Contents included on the App front page *(View Safety Message).*

OPEN | LATCH | CLOSE
at the click of a button
www.commtel.io/apps/

EASY TO USE

- Each call point has the ability to cascade through 8 landline or mobile numbers. Once answered, if the recipient wants to grant access to the visitor they simply press the # key on their phone.

DOWNLOADABLE ACTIVITY LOGS

- Download the last 10,000 interactions with the unit and see who is gaining entry, how and when*.

ACCESS CONTROL

- With built in keypad and dial to open, you can authorise entry to specific individuals with either a PIN code or by registering their mobile number. You can even time restrict entry for certain individuals if required!

EASY TO INSTALL

- Minimal cabling:
  - Simply plug (12v) PSU into 240V AC power.
  - Connect relays into entry equipment.
  - Connect antenna and register onto to local mobile network *(SIM Card pack provided upon request**).*
- No access is required to individual properties for installations or maintenance.

TWO YEAR WARRANTY

- Including programming support.
- Thereafter, select your level of cover in line with your specific site requirements.

* Activity logs can be downloaded via our Cirrus programming software or upon request from our programming team. Charges may apply.

**Optional and subject to activation order.

TECHNICAL SPECIFICATION

▮ **Power** 12 Volt 1 Amp. DC PSU fitted with a 3A fuse *(supplied and must be dedicated to the Telguard intercom unit).* Power Consumption: 120 mA Idle @ 12 Volts.

▮ **Telephone Type** Standard DTMF *(Dual Tone Multi Frequency)* generating telephone, cordless or mobile phone.

▮ **Programming** Remotely programmable via Commtel Config App, SMS or Cirrus. We recommend programming is carried out via the installer, or by filling out the programming form on the Commtel website.

▮ **Relays** 3: 1 x 2A, 2 x 200mA, 2 x Auxiliary inputs.

▮ **Relay Activation Time** 1 ~ 60 seconds, adjustable locally and remotely.

▮ **Operating Commands** Default #, 2#, 3#, 4#, 5#, 6#, 7#, 8#, 9#. All relay commands are configurable.

▮ **Time Clocks** The on-board time clock enables custom profile functions to be activated.

▮ **Authorised Call Access** 1300 telephone numbers can be stored. Calling the unit, from an authorised telephone number activates the relay.
