

COMMTEL CONFIG APP GUIDE

The Comm.tel CONFIG app makes it quick and easy to program and manage your Comm.tel intercoms or your Command Unit.

The app is free to download on iOS and Android.

Before You Start

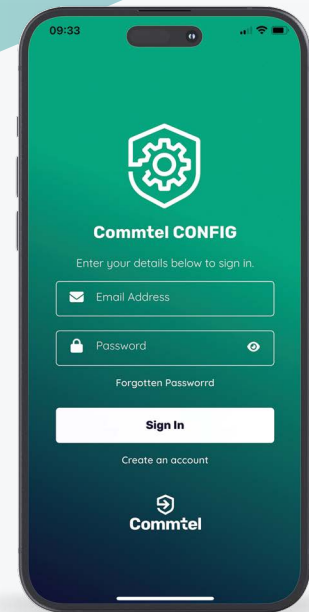

- You'll need the telephone number of the SIM inside your unit to program it.
- Download the **Comm.tel CONFIG** app from your app store (Apple or Google), or click the relevant icon to the right.

Getting Set Up

1. Open the app tap the + button in the bottom right of the home screen to add your unit. (If you haven't already got an account, you will need to create one).
2. Tap the **+ Add Panel** button in the bottom right of the home screen to add additional Comm.tel intercoms.
3. Scan the QR code on the unit's PCB. For Command Units, the serial number is found on the underside of the casing.
 - Allow the app access to your camera when prompted.
 - If you can't scan the code, tap "No access to QR code?" on the Add Panel page and follow the instructions.
4. Once added, your unit will appear in the CONFIG app for easy programming.
5. Use the settings icon ⚙️ to access settings.

Tips & Help

- Tap the ⓘ icon in the top right corner of each screen for extra guidance.
- Visit www.commtel.io and head to the **Support** tab for FAQs.
